

## **AB-537 doesn't solve a problem, it creates one!**

An old utility pole, overloaded with telecom equipment but “deemed approved” thanks to **AB-537**, doesn't cost the state of California anything

But when it collapses in a heavy wind and starts a fire, it could cost billions.

**AB-537. Great for telecoms. Bad for everyone else.**  
**VOTE NO on AB-537!**
